

SEC COMMENT LETTERS

Take a virtual tour

Learn from your peers' SEC Comment Letters experience

Leverage our AI advanced search features to contextually search our SEC Comments and Response Precedent database with 2M+ threaded comment letters, company responses, and pushbacks since 2016.

Our features help you maximize your research time and enhance your analysis.

1

Search **multiple threaded iterations** of the life cycle of a single SEC Comment Letter.

2

Cross-reference to FASB accounting treatments and SEC regulation guidelines.

3

Literature filters allow for quick benchmarking of ASC, ASU, SEC Regulations, FASB accounting treatments, and more.

4

Targeted filters pinpoint how all SEC comments were closed and identify expedient approaches based on precedent.

5

The **Push Back filter** targets multiple rounds of exchange with the SEC.

Largest searchable public company intelligence database.

MyLogIQ is the biggest and most encompassing public company intelligence provider in the industry. Research 2M+ Comments from the past 14 years within thousands of public companies, eight indices, and 11 SASB sectors.

Deep History & Even Deeper Sources

Our database counts on 20+ years of historical data, 20+ million documents, 7,000+ websites, and all active companies each year.

Search Result Analytics Ensure a Comprehensive Search and Allow Further Narrowing of Your Results

Our AI will do the thinking for you if you are not sure which search parameters to use. Start with broad search terms to ensure complete results and then use our CompanyIQ Analytics visual filters to validate and further narrow your results by SEC Examiner, SEC Topic, SEC Office, and more.
